**Gear Technology, International Precision Gear Manufacturer,
Recognized by Boeing Aerospace for Performance Excellence.**

Rancho Cucamonga (CA) (March 24, 2009)... Gear Technology, a leading international precision gear manufacturer, has been recently recognized by Boeing, the world's largest aerospace manufacturing company, with a Silver Performance of Excellence Award.

"We are proud to recognize the performance excellence of our suppliers, who have demonstrated that they are the best in the Boeing supply base," said Steve Schaffer, Boeing enterprise leader of Supplier Management and vice president and general manager of Supplier Management for Boeing Commercial Airplanes.

Tom Marino, President of Gear Technology, acknowledged that the annual award is based on superior product quality and delivery metrics over a twelve-month period, and is presented to a select group of worldwide Boeing suppliers.

"Boeing is committed to developing, rewarding, and retaining our top-performing suppliers who share our focus on first-time quality and on-time delivery." "These high-level certifications represent our ongoing commitment to superior product quality, customer value and personal customer service," Schaffer added.

Gear Technology has been manufacturing quality precision gears for some of the world's largest and most widely recognized aerospace, military and commercial manufacturers since 1986. Today the company occupies over 16,320 square feet of modern manufacturing space with state-of-the-art, computer-controlled equipment.

"Our integrated manufacturing processes, including sophisticated job tracking systems, ensures products are produced with careful attention to the most intricate engineering detail and product specifications," Marino said. "The company also offers gear blanking, engineering consultation and sophisticated inventory management services."
