### **Gear Technology, International Precision Gear Manufacturer, Signs Five-Year Contract Agreement with Triumph Aerospace Systems**

Rancho Cucamonga (CA) (June 29, 2009)...Gear Technology, a leading worldwide manufacturer of precision gears for the aerospace, military and commercial industries has signed a five-year manufacturing agreement with Triumph Gear Systems, a group company of Triumph Aerospace Systems, headquartered in Park City, Utah.

Terms and conditions of the agreement provide a mutually beneficial business relationship between our two companies, according to Tom Marino, President of Gear Technology. "We are pleased to be working with Triumph Gear Systems," Marino said. "Gear Technology will be contract manufacturing precision quality machine gear products, including shafts, splined rings, splined spacers and clutch plates for the military V-22 Osprey Tilt-Rotor Aircraft."

Triumph Gear Systems specializes in the design, development, manufacture, sale and repair of gearboxes, high-lift flight control actuators, gear-driven actuators and precision gears for the aerospace industry.

Gear Technology has been manufacturing quality precision gears for some of the world's largest and most widely recognized aerospace, automotive, military and commercial manufacturers since 1986. Today, the company occupies over 16,320 square feet of modern manufacturing space with state-of-the-art, computer-controlled equipment.

"Our integrated manufacturing processes, including sophisticated job tracking systems, ensures products are produced with careful attention to the most intricate engineering detail and product specifications," Marino said. "The company also offers gear blanking, engineering consultation and sophisticated inventory management services."

###

### **About Gear Technology**

The Gear Technology team of manufacturing and quality control professionals and skilled craftsmen are dedicated to providing the highest quality products and personal customer service. Our attention to every detail throughout the manufacturing process, with careful planning and critical inspection points, ensures 100% compliance with your product specifications. We offer long-term agreements, Kan-Ban shipping, just-in-time inventory management, and free engineering consultation to increase the Lean Manufacturing of your products. With decades of knowledge and experience, you can count on Gear Technology for all your high-performance, precision gears.
