International Precision Gear Manufacturer, Gear Technology, Reports Fiscal Year End Sales Increase, Adds New Hobber

Rancho Cucamonga (CA) (April 30, 2009)...Gear Technology, a leading worldwide manufacturer of precision gears for the aerospace, military and commercial industries has announced a 10% increase in sales volume for fiscal year-end 2008.

“We streamlined our manufacturing process to accommodate this added volume of business,” Tom Marino, President of Gear Technology, said. “This positive increase in sales reflects our customers’ confidence in us to meet their product requirements on time and on budget.”

“In order to efficiently produce this product volume we added a new Koepfer 173 Gear Hobber for more capacity,” Marino said. “These state-of-the-art machines load parts, machine gears and unload them automatically.”

Gear Technology has been manufacturing quality precision gears for some of the world’s largest and most widely recognized aerospace, automotive, military and commercial manufacturers since 1986. Today the company occupies over 16,320 square feet of modern manufacturing space with state-of-the-art, computer-controlled equipment.

“Our integrated manufacturing processes, including sophisticated job tracking systems, ensures products are produced with careful attention to the most intricate engineering detail and product specifications,” Marino said. “The company also offers gear blanking, engineering consultation and sophisticated inventory management services.”

###

About Gear Technology

The Gear Technology team of manufacturing and quality control professionals and skilled craftsmen are dedicated to providing the highest quality products and personal customer service. Our attention to every detail throughout the manufacturing process, with careful planning and critical inspection points, ensures 100% compliance with your product specifications. We offer long-term agreements, Kan-Ban shipping, just-in-time inventory management, and free engineering consultation to increase the Lean Manufacturing of your products. With decades of knowledge and experience, you can count on Gear Technology for all your high-performance, precision gears.
