### **Gear Technology, International Precision Gear Manufacturer, Acquires New State-of-the-Art Gear Measuring and Analysis System**

Rancho Cucamonga (CA) (June 21, 2010)...Gear Technology, a leading international precision gear manufacturer and related services provider, today announced the acquisition of a new Zeiss Prismo Navigator Coordinate Measuring Machine.

This new state-of-the-art Zeiss CMM with Gear Pro Software is the most advanced measurement technology available that provides highly accurate, complete and precise gear measuring and analysis.

“It’s a versatile system that can handle a large range of gear configurations including: Spiral Bevel Gears, Gleason Bevel Straights, Internal and External Spur Gears, Worm Gears, Helical Gears, and Internal and External Splines up to 25.50 inches in diameter,” Jerry Flores, Gear Technology Quality Manager, confirmed.

The Prismo Navigator is equipped with the Zeiss Vast Gold Probe Head, Calypso Measuring Software, the latest scanning technology, and all integrated with a rotary table.

“With this new Zeiss Prismo Navigator Coordinate Measuring Machine, Gear Technology is making a significant investment in advanced gear manufacturing technology,” Flores said. “It’s the latest addition in our ongoing commitment to offer our customers the best quality, value and service in the industry.”

The company has been manufacturing quality precision gears for some of the world’s largest and most widely recognized aerospace, military and commercial manufacturers since 1986. Today the company occupies over 16,320 square feet of modern manufacturing space with state-of-the-art, computer-controlled equipment.

### **About Gear Technology**

The Gear Technology team of manufacturing and quality control professionals and skilled craftsmen are dedicated to providing the highest quality products and personal customer service standards. Our attention to every detail throughout the manufacturing process, with careful planning and critical inspection points, ensures 100% compliance with your product specifications. We offer long-term agreements, Kan-Ban shipping, just-in-time inventory management, and free engineering consultation to increase the Lean Manufacturing of your products. With decades of knowledge and experience, you can count on Gear Technology for all your high-performance, precision gears.
